

# PRODUCT INFORMATION

<b>PRODUCT</b>	<p style="text-align: right;"><i>(TYPICAL PROPERTIES)</i></p> <p style="text-align: center;">These should not be considered as specifications.</p> <h2 style="text-align: center;">TOUGH-SEAL 22 A/B (KEY PC2022A/B)</h2> <h3 style="text-align: center;">SEALANT FOR THERMAL CYCLING</h3>																										
<b>DESCRIPTION</b>	<p><b>Tough-Seal 22</b> is a tough and durable two component, hybrid epoxy elastomer that features a longer gel time than Tough-Seal 21. Tough-Seal is a superior electrical potting compound with excellent thermal cycling performance. Tough-Seal has the flexibility of a urethane and the service temperature of an epoxy. It maintains this exceptional flexibility from -40°C to 150°C (-40°F to 300°F) and it resists contraction and pull back during thermal cycles so it protects sensitive electronics. Since Tough-Seal is an epoxy and not a urethane, it does not incorporate isocyanates and Tough-Seal has a mild health and safety profile. Tough-Seal is ideal for electrical potting applications requiring thermal cycling and thermal shock resistance and low embedment stress.</p>																										
<b>ADVANTAGES &amp; APPLICATIONS</b>	<ul style="list-style-type: none"> <li>✓ Excellent Thermal Cycling Performance &amp; Thermal Shock Resistance</li> <li>✓ Resilient, Tough, Durable, High Elongation</li> <li>✓ Low Embedment Stress on Electronics, Low Shrinkage</li> <li>✓ Adhesion to Thermoplastics and Wire Insulation, Specific Adhesion to Aluminum</li> </ul>

# CONDITIONS

Seller does not accept any terms or conditions of sale or make any warranties, expressed or implied, other than those contained in this Statement or in any existing written contract between the seller and buyer covering Key Polymer Corporation Products.

## **ORDER ACCEPTANCE:**

Orders are accepted upon the understanding that seller is not obligated to make delivery by any specified date nor liable for damage due to delay or failure in filling order caused by contingencies beyond its control. If delivery dates are specified, they are estimates only and not guaranteed. In the event of unreasonable delay in filling order, buyer may cancel same on written notice to seller, provided said order is not then in process of manufacture.

## **EXCISE TAXES:**

The amount of excise taxes on the production, sale, delivery or transportation of material covered hereby shall be paid by the buyer.

## **DISCLAIMER OF LIABILITY:**

As the conditions or methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of this material. Information contained herein is believed to be true and accurate, but all statements or suggestions are made without warranty, express or implied, regarding accuracy of the information, the hazards connected with the use of the material or the results to be obtained from the use thereof. Compliance with all applicable federal, state and local laws and regulations remains the responsibility of the user.

Buyer shall make an examination both as to quantity and quality of any material delivered hereunder immediately upon receipt and failure of buyer to give notice of any claims within 15 days after receipt of such material shall be an unqualified acceptance of such material and a waiver by buyer of all claims with respect hereto.

## **USERS RESPONSIBILITY:**

Key Polymer product usage suggestions, bulletins and manuals cannot cover all possible situations which the user may experience during processing. Each aspect of your operation should be examined if or where additional precautions or procedures may be necessary. All health and safety information contained in Key Polymer's Material Safety Data Sheets for the products being used should be provided to all employees with exposure to the product. It is the responsibility of the user to provide this information in this manner and to use the information to develop appropriate work practice guidelines and employee instructional programs.

## **LIABILITY LIMITATION:**

Buyer assumes all risk and liability for the results obtained by the use of any material delivered by Key Polymer in the manufacturing processes of buyer or in combination with other substances in manufacturing and repair processes of buyer or in combination with other substances. No claim of any kind, whether as to material delivered or for non-delivery of material, shall be greater in amount than the purchase price of this material in respect of which such claim is made.
